Anytime.Anywhere

“ Bills paid online have increased by 18% since 2013, while the percentage of consumers who receive bills online have increased by 33%. ”

Integrated Technology For The Business Minded

PayMaster is a customized solution that integrates with your company’s current software. We provide you with smooth business process, considerable cost reductions along with swift online invoicing. The customized solution makes it possible for you to unify your business processes.

Easily combine your customer data and current payment forms with our solution. With the help of our team you may now produce instant invoices, documents and charge your customers without any manual errors, time delays or the need to install any specific software.

BRANDED SITE

Our professionals will customize your site. This makes customers feel comfortable when paying online.

SECURITY

Data is safe, secure and always backed up. All communication with our servers is encrypted with 256-bit encryption.

REDESIGN OF DOCUMENTS

Use the custom made invoicing depicting your corporate identity and boost your credibility with professional looking documents.

REMITTANCE PROCESSING

Process check payments quickly and efficiently with state of the art scanning equipment. Update your accounting system and make your deposit in one easy step.
